

Ultrasonic sensor 2U Industry

The 2U Industry ultrasonic sensor is ideal for reliable and precise measurement in harsh industrial environments. This series offers a suitable solution for almost every type of application. Different analog output signals are available, which are supplemented by up to four switching outputs. The fast and easy parameterization is done by means of the easy to read display and the teach button. The rotatable head offers additional flexibility for mounting in difficult installation situations.

- Reliable measurement independent of transparency, gloss, surface texture and material color
- Parameterization via teach-in button
- Display to show the current fill level
- Range up to 1m
- Available mounting threads: G 1,5", G 2" 1,5" NPT or 2" NPT
- Temperature range -20°C...+70°C
- Current or voltage output
- Up to 4 freely programmable switching points (high-side / low-side)
- Rotatable head

ORDERING KEY

20						30 Industry Ultrasonic sensor
						Mounting type
22						G2" thread
32						NPT 2" thread
52						G1.5" thread
62						NPT 1.5" thread
						Measurement range
	PROG					NPT/G1.5" max. 900mm NPT/G2" max. 600mm Adjustable through Touch by Button
						Output signal
	1					4 - 20mA
	4					0 - 10 V
	7					0.5 - 4.5 V
						Switching output
		10				Low-side
		30				High-side
						Seal
			F			Sealing material NBR for mounting NPT/G2"
			G			Sealing material NBR for mounting NPT/G1.5"
						Connection
				C		Cable outlet
				D		M12 5-pin
						Filtering time
					00	20s
					01	1s
